Technical Advisor -

Sustainable Charcoal Project

The Tanzania Forest Conservation Group in partnership with the Tanzanian Community Forestry Network (MJUMITA) is planning to implement the 'Sustainable Charcoal Project' with the goal that: 'Commercially viable value chains are established for legal, sustainably sourced charcoal'. The project is financed by the Swiss Agency for Development and Cooperation as part of a broader programme 'Transforming Tanzania's Charcoal Sector'. As part of this project, TFCG and MJUMITA are seeking applications from qualified candidates for the position of Technical Advisor. The position is for 24 months with the possibility to renew for a further 48 months subject to a positive mid-term evaluation. The position of Technical Advisor is open to women and men of any nationality.

Technical Advisor, TFCG

Qualifications and experience

- MSc or higher degree and at least 5 years experience in a related field including work in East Africa.

Responsibilities

Responsible for supporting the Project Manager to successfully achieve the outcome and outputs of the Sustainable Charcoal Project with specific responsibilities on overseeing the development of a marketing strategy; providing input on the development of sustainable charcoal certification; and developing guidelines to link sustainable charcoal with participatory forest management.

How you can apply

Qualified candidates should send applications including a detailed CV, covering letter, contact details (including an e-mail address and phone number) and contacts of three professional referees to: Personnel Officer, Tanzania Forest Conservation Group, P.O. Box 23410 Dar es Salaam. Email: personnel@tfcg.or.tz

Please indicate clearly which job you are applying for. TFCG is committed to conserving the environment, if you are able please submit your application electronically.

Deadline for applications 30th April 2012
